Parental Involvement Matters

Research shows that when schools and families work together to support learning, children tend to do better in school, stay in school longer and like school more. FBCS is fully aware that it will not be successful in attaining its student achievement goals without actively encouraging and supporting strong parent involvement .

Parent involvement takes many forms:

-engaging in learning activities with your children at home, including helping with reading skills and checking homework;

-monitoring how your children are spending their time out of school;

-talking about school with your children and taking an interest in what they are learning;

-attending school events, going to parent-teacher conferences, meeting with teachers, and volunteering in the classroom or school;

-joining the Parent-Teacher Fellowship

-Working with administration to determine if there are any other creative ways to support students and schools including policies and procedures.

The mission of First Baptist Christian School is to provide academic excellence in a Christ centered environment, which meets the educational and spiritual needs of each individual, and to develop confident, disciplined, caring responsible citizens, and life-long learners who exemplify grace, knowledge, integrity, and godliness.

From God's Word....

NEW POLICY

regarding field trips and fire/earthquake drills

Class Field Trips are an integral part of a student's education at FBCS. We are now requiring all parent drivers on field trips to show proof of Cayman Islands Driver's License and insurance by submitting photo copies to the school office. Please feel free to submit these as soon as you are able so that we are prepared well in advance of upcoming field trips for students. Safety and protection of our students is a primary concern at FBCS.

Fire and Earthquake Drills are planned for all students at WEE Care and FBCS during the month of September. We will be monitoring the success and improvement of these drills. Teachers are currently reviewing the policies and procedures with our students in the classroom to ensure they are prepared for the upcoming practices.
