Parent Involvement

Eagle's Eye

October 2011
Newsletter,

FBCS believes that the education of students is enhanced by the involvement of parents and families in their children's education. We advocate strong connections between the home, school, church and community as one means of reducing barriers to student achievement. Studies demonstrate that when parents are involved in their children's education, the attitudes, behaviors, and achievement of students are positively enhanced.

FBCS is incorporating the following National Standards as it pertains to Parent Involvement:

1. Communicating
2. Parenting
3. Student Learning
4. Volunteering
5. School Decision Making and Advocacy
6. Collaborating with Community

The mission of First Baptist Christian school is to provide academic excellence in a Christ centered environment that meets the educational, physical and spiritual needs of each individual

From God's Word....

Do not fear, for I am with you, do not be afraid, for I am your God; I will strengthen you, I will help you, I will uphold you with my victorious right hand.

Isaiah 41:10

From God's Word....

Project Grow

Planting the seed to better health.

Grade 6 & WEE Care joined together in planting a garden of fruit & veggies as well as planting a few trees as part of a special project called Project Grow. Students will take part in watering and maintaining this project on a regular basis. One of the goals is to measure how children feel at this point about health, fruits and veggies, and what they want out of the garden.

PRECAUTIONS FOR FLU SEASON

Here are some preventative steps we take at preschool that can also be reinforced at home:

- Cover your nose and mouth with a tissue when you cough or sneeze—throw the tissue away after you use it.
- Wash your hands often with soap and water, especially after you cough or sneeze. If you are not near water, use an alcohol-based hand cleaner.
- Keep yourself and your baby away from people who are sick, as much as you can.
- If you get the flu, stay home from work or school(especially if there are symptoms such as mucus and fever).
- Try not to touch your eyes, nose, or mouth. germs often spread this way.
