

# INTERNET SECURITY

## For Your Child

### Tips:

1. Decide where your children can go on the internet (websites) &
2. Monitor your children when they are on the internet  
Some software options that can assist with the monitoring are available from:
  1. [www.nchsoftware.com](http://www.nchsoftware.com)
  2. [www.bsecure.com](http://www.bsecure.com) "Focus on the Family" endorsed
  3. [www.spectorsoft.com](http://www.spectorsoft.com)
  4. [www.netnanny.com](http://www.netnanny.com)
  5. [www.internetsafety.com](http://www.internetsafety.com)
  6. [www.securityorb.com](http://www.securityorb.com)*(There are many other software products available)*
3. Limit your child's internet time.
4. Increase your privacy and security settings on all of your computers.
5. Talk to your children about the internet.
6. Tell them not to talk to strangers on the Internet.
7. Make sure they know not to give out any personal information, such as their age, their home address or personal phone numbers.

### Blackberry and Social Media Internet Use Concerns:

1. Cyber-bullying
2. Sexting
3. Online Predators
4. Talking to Strangers
