GRADE 5 TECHNOLOGY

WEEK 3:

30 MARCH – 03 APRIL

'What day is it?', asked Pooh.
'It's today,' squeaked Piglet.
'My favorite day,' said Pooh."

WEEKLY QUOTE

LESSON 1: CODING

What will I be learning about?	In this online activity, students will have the opportunity to push their understanding of loops to a whole new level. Playing with the Bee and Plants vs Zombies, students will learn how to program a loop to be inside of another loop. They will also be encouraged to figure out how little changes in either loop will affect their program when they click **Run**.
Vocabulary	- **Loop** - The action of doing something over and over again. - **Repeat** - Do something again

Activity	Code.org - Complete Lesson 5
Section Code for 5A	FSJTVG
Section Code for 5B	SGTGRD

LESSON 2: TYPING

What to focus on?	• Remember that your goal is to progress to blind typing so focus on the correct hand position and trying not to look down at the keyboard. • Don't worry about your speed and accuracy – making mistakes will help train your brain to learn where the letters are • Have fun and remember you are a super star typer.

Activity	Complete Exercise 41, 42, 43
Username	Most of you have done the initial of your first name (capital letter) and then your last name (starting with a capital) E.g. My name is Kirsten Anthony so mine would be KAnthony.
Password	Your password should be the same password that you log in to your computer with. Possibly the same as your username but with a number on the end. Once again, please email me if you have issues.
